OFFSHORE READINESS TRAINING PROGRAM

MCR provides a 3 day Offshore Readiness Training Program that helps to prepare the entry level applicant for offshore and onshore positions. The program is designed to not only acquaint individuals with life and work in the Oil and Gas Industry, but they also bring together the health, safety, and environmental training certifications (OSHA and MMS) most requested by oilfield operators and other host companies. This training helps to ensure compliance with government, and industry safety requirements, prior to going to work offshore or onshore in the oil and gas industry.

Course Description

The Offshore Readiness Training Program brings together the health, safety and environmental training certifications (OSHA and MMS) most requested by oilfield operators and other host employers. Core Compliance is SafeGulf and SafeLand accredited and is accepted by every major and most mid-major operators in the USA, Canada and Qatar. This in depth training program will ensure that you compliant with OSHA and MMS safety training requirements. The instructor led interactive training will certify you in training levels beyond awareness level. Each student that successfully completes the course receives documentation of completion in the form of Core Compliance picture ID Badge and a Certificate of Completion.
